Pudding the Little Chick

Complete Digital Crochet Amigurumi Pattern

DIGITAL DOWNLOAD ONLY - NO PHYSICAL ITEM WILL BE SHIPPED

Skill level: Confident Beginner / Easy Intermediate | US crochet terminology

2. Digital Download Notice

This product is a digital crochet pattern. It is not a finished amigurumi or physical toy, and no physical item will be shipped. The customer must crochet, stuff, assemble, and finish the chick using the written instructions in this document.

3. Finished Measurements

Calculated target size using the recommended super-bulky plush yarn, 4.5 mm hook, and firm amigurumi tension:

Feature	Calculated design target
Overall height, including crest	Approx. 13.5-15.5 cm / 5.3-6.1 in
Body height, excluding crest	Approx. 11-12.5 cm / 4.3-4.9 in
Body width at widest point	Approx. 11-12.5 cm / 4.3-4.9 in
Wingtip-to-wingtip width	Approx. 16-18 cm / 6.3-7.1 in
Body depth	Approx. 10.5-12 cm / 4.1-4.7 in
Integrated face/head zone	Approx. 10-12 cm wide x 8-9 cm high
Each wing	Approx. 4-4.5 cm x 3.5-4 cm / 1.6-1.8 x 1.4-1.6 in
Each foot	Approx. 3-3.5 cm x 2-2.5 cm / 1.2-1.4 x 0.8-1 in
Beak	Approx. 3 cm wide x 2 cm high / 1.2 x 0.8 in
Each cheek circle	Approx. 2.3-2.7 cm / 0.9-1.1 in diameter
Crest above crown	Center loop approx. 3 cm; side loops approx. 2-2.5 cm

The chick is designed to sit upright on its rounded base; its seated/upright height is the same as the overall height above.

4. Materials and Tools

Item	Recommendation	Approximate amount / note
Yarn - yellow	Super Bulky #6 chenille/plush polyester	Approx. 90-110 g; about 95-120 m / 104-131 yd
Yarn - orange	Same yarn family or similar thickness	Approx. 15-20 g; about 16-22 m / 17-24 yd
Yarn - pink	Same yarn family or similar thickness	Approx. 5-8 g; about 5-9 m / 5-10 yd
Black detail yarn	Smooth black yarn or embroidery thread	Approx. 1-2 m / 1-2 yd for eyebrows or embroidered eyes
Crochet hook	4.5 mm	Use 4.0 mm if your fabric shows gaps
Safety eyes	2 x 16 mm black safety eyes	Optional; embroidered-eye alternative given below
Stuffing	Polyester fibre filling	Approx. 35-50 g, depending on density
Notions	Tapestry needle, stitch markers, pins, scissors, measuring tape	Row counter optional

Safety warning: Safety eyes, buttons, beads, wire, and other small or rigid components may not be suitable for children under 3 years old. For a child-safe appearance, omit rigid eyes and embroider the eyes securely with black yarn instead. Always follow the safety requirements that apply where the finished handmade item will be used or sold.

Embroidered-eye alternative

At the same eye positions given later, embroider two rounded black ovals about 1.5-1.8 cm high and 1.3-1.5 cm wide. Use several smooth satin-style passes, secure the yarn well, and bury the ends deeply inside the stuffed body.

5. Gauge and Tension

Target gauge: 10 sc x 10 rounds = approximately 6.5 x 6.0 cm / 2.6 x 2.4 in, worked in continuous spiral rounds with a 4.5 mm hook and the recommended Super Bulky #6 plush yarn. Measure the fabric unstretched.

- Use firm, dense amigurumi tension so that the stuffing does not show between stitches.
- The yarn-under single crochet method is recommended for the compact stitch texture used by this design.
- If your fabric is loose, move down 0.5 mm in hook size before adding extra stuffing.
- Exact gauge affects finished size and yarn usage; it does not guarantee an exact finished measurement.

6. Crochet Method and Terminology

- Terminology: Standard US crochet terms.
- Main method: All crocheted pieces are worked in continuous spiral rounds unless a finishing step explicitly says otherwise.
- Beginning-of-round marker: Place a removable marker in the first sc of every round. Move it up after every round.
- Main body orientation: The main head/body begins at the underside and finishes at the crown. Keep the BOR visually aligned with the center back. A removable guide thread placed up the back is helpful.
- Spiral drift: Continuous rounds can shift slightly. Use the stated round and stitch positions as placement targets and adjust a feature by about 1 stitch only when needed for visual centering after stuffing.
- Single crochet style: Yarn-under single crochet is intended for the closest visual match. Yarn-over single crochet is acceptable but may make the piece slightly larger and softer.
- Fabric side: Keep the finished/right side of the crochet facing outward. Do not turn after rounds.
- There are no joined rounds in this pattern, so no joining slip stitch or beginning chain is counted as a stitch.

> Orientation rule: Right and left are always described from the chick's point of view unless a sentence explicitly says viewer's right or viewer's left.

7. Abbreviations

Abbreviation	Meaning
MR	magic ring
ch	chain
sl st	slip stitch
sc	single crochet
inc	increase: work 2 sc in the same stitch
inv dec	invisible decrease: insert hook through the front loop of each of the next 2 stitches, yarn over, draw through both front loops, yarn over, and complete them together as 1 sc
BLO	back loop only
st / sts	stitch / stitches
rnd / rnds	round / rounds
FO	fasten off
BOR	beginning of round
CF	center front
CB	center back

8. Construction Overview

Piece inventory

Piece	Qty	Construction	Stuffing
Main head/body	1	Worked bottom-up in one continuous piece	Firmly stuffed
Wings	2	Worked separately; folded flat after Rnd 6	Unstuffed
Feet	2	Worked separately; lightly filled and flattened	Lightly stuffed
Beak	1	Worked separately; lightly filled and flattened	Lightly stuffed
Cheeks	2	Flat circles sewn to face	Unstuffed
Crest	1 three-loop group	Surface-crocheted directly at crown	Unstuffed
Eyebrows	2	Embroidered after face placement is checked	Not stuffed

Openings and access

- The main body remains open at the crown until the safety eyes are installed and most stuffing has been added.
- Each foot and the beak remain open after the final round only long enough to add a small amount of stuffing; then the opening is flattened and closed.
- Wings are folded and closed without stuffing.
- Cheeks and crest remain unstuffed.

Recommended assembly order

1. Crochet the main body through Rnd 20 and install the safety eyes, if used.
2. Finish the main body decreases, stuff, shape, and close the crown. If using the embroidered-eye alternative, embroider both eyes now at the marked centers before attaching the remaining facial features.
3. Make and pin the beak and cheeks; confirm the face from the front before sewing.
4. Embroider the eyebrows.
5. Make the crest directly at the crown.
6. Make both wings and pin them symmetrically to the side midlines.
7. Make both feet, sculpt the toe divisions, and attach them to the front underside.
8. Complete a final symmetry, seating, and seam check; secure and bury all yarn tails.

9. Complete Written Crochet Pattern

Stitch counts in parentheses are the required stitch count at the end of that round. Keep a marker in the first stitch of every round.

A. Main Head/Body - make 1 in yellow

Round	Instruction	Sts
Rnd 1	Work 6 sc in MR.	6
Rnd 2	Inc in each st around.	12
Rnd 3	(Sc in next st, inc in next st) 6 times.	18
Rnd 4	(Sc in next 2 sts, inc in next st) 6 times.	24
Rnd 5	(Sc in next 3 sts, inc in next st) 6 times.	30
Rnd 6	(Sc in next 4 sts, inc in next st) 6 times.	36
Rnd 7	(Sc in next 5 sts, inc in next st) 6 times.	42
Rnd 8	Working in BLO, sc in each st around. This creates the flatter base turn.	42
Rnd 9	(Sc in next 6 sts, inc in next st) 6 times.	48
Rnd 10	Sc in each st around.	48
Rnd 11	(Sc in next 7 sts, inc in next st) 6 times.	54
Rnd 12	Sc in each st around.	54
Rnd 13	Sc in each st around.	54
Rnd 14	Sc in each st around.	54
Rnd 15	Sc in each st around.	54
Rnd 16	Sc in each st around.	54
Rnd 17	Sc in each st around.	54
Rnd 18	Sc in each st around.	54
Rnd 19	Sc in each st around.	54
Rnd 20	Sc in each st around. Do not continue until eye placement has been checked.	54
Rnd 21	(Sc in next 7 sts, inv dec) 6 times.	48
Rnd 22	Sc in each st around.	48
Rnd 23	(Sc in next 6 sts, inv dec) 6 times. Begin adding stuffing after this round.	42
Rnd 24	Sc in each st around.	42
Rnd 25	(Sc in next 5 sts, inv dec) 6 times.	36
Rnd 26	(Sc in next 4 sts, inv dec) 6 times. Add more stuffing and shape the lower body flat against the table.	30
Rnd 27	(Sc in next 3 sts, inv dec) 6 times.	24
Rnd 28	(Sc in next 2 sts, inv dec) 6 times.	18
Rnd 29	(Sc in next st, inv dec) 6 times. Add the final small portions of stuffing.	12
Rnd 30	Inv dec 6 times.	6

Eye placement before Rnd 21: With BOR at CB, mark CF approximately halfway around the 54-st round. Place the eye centers between Rnds 17 and 18, about 5 sts to each side of CF, giving roughly 10 sts center-to-center. Check both eyes from the front before locking the safety washers. If using embroidered eyes, place removable markers at these locations instead of safety-eye posts. After the body is fully stuffed and the crown is closed, embroider the two black eye ovals at the marked centers before attaching the beak, cheeks, or eyebrows.

Finish the body: After Rnd 30, cut a 25 cm / 10 in tail. Thread it through the front loops of the remaining 6 sts, pull the crown closed, secure firmly, and bury the tail. Shape the body into a soft egg form with a visibly flatter underside.

B. Wings - make 2 in yellow

Round	Instruction	Sts
Rnd 1	Work 6 sc in MR.	6
Rnd 2	Inc in each st around.	12
Rnd 3	(Sc in next st, inc in next st) 6 times.	18
Rnd 4	Sc in each st around.	18
Rnd 5	(Sc in next st, inv dec) 6 times.	12
Rnd 6	Sc in each st around.	12

Finish each wing: Do not stuff. Fold the opening flat so 6 sts lie against 6 sts. Work 1 sc through both layers across the opening (6 closure sc). FO, leaving a 35 cm / 14 in tail for sewing. The closure edge will face the body; the rounded folded edge faces outward.

C. Feet - make 2 in orange

Round	Instruction	Sts
Rnd 1	Work 6 sc in MR.	6
Rnd 2	Inc in each st around.	12
Rnd 3	(Sc in next st, inc in next st) 6 times.	18
Rnd 4	Sc in each st around.	18
Rnd 5	(Sc in next st, inv dec) 6 times.	12

Finish each foot: Add only a small pinch of stuffing, concentrated toward the rounded front. Flatten the 12-st opening and whip stitch it closed through 6 matched pairs. Leave a 35 cm / 14 in sewing tail. Keep the closed edge at the back/underside of the foot.

Toe sculpting: With a separate 25 cm / 10 in strand of orange yarn, make two shallow vertical cinching lines across the front half of the foot to divide it visually into 3 rounded toes. Make 2 passes per groove, tighten only until a visible indentation forms, knot securely on the underside, and bury the ends.

D. Beak - make 1 in orange

Round	Instruction	Sts
Rnd 1	Work 6 sc in MR.	6
Rnd 2	Inc in each st around.	12
Rnd 3	(Sc in next 2 sts, inc in next st) 4 times.	16
Rnd 4	Sc in each st around.	16
Rnd 5	(Sc in next 2 sts, inv dec) 4 times.	12

Finish the beak: Add a very small pinch of stuffing. Flatten the opening horizontally and whip stitch the 12 sts into 6 matched pairs. FO with a 35 cm / 14 in tail. Gently press the piece into a short oval about 3 cm wide.

E. Cheeks - make 2 in pink

Round	Instruction	Sts
Rnd 1	Work 6 sc in MR.	6
Rnd 2	Inc in each st around.	12

Finish each cheek: Sl st into the next st, FO, and leave a 25 cm / 10 in tail. Keep the circle flat and unstuffed. The small final-round step can be hidden at the lower edge when sewing.

F. Crest - surface crochet directly onto the crown in yellow

1. Identify the crown closure and mark the CF direction. Join yellow yarn securely at the top center.
2. Center loop: Ch 8, then sl st back into the same crown anchor to form a loop.
3. Move 1 top stitch toward the chick's right with a sl st. Ch 6, then sl st back into the same anchor to form the right side loop.
4. Move across the crown to a matching top stitch on the chick's left. Ch 6, then sl st back into that anchor to form the left side loop.
5. FO. Secure and bury the ends inside the crown. If needed, use one tiny yellow tack stitch at the base of each side loop so all 3 loops stand upward rather than falling flat.

G. Eyebrows - embroider 2 in black

- Use black smooth yarn or embroidery thread.
- Center one shallow curved eyebrow above each eye, spanning about 3 body stitches and sitting around Rnds 20-21.
- Make 1-2 smooth passes for each eyebrow. Do not pull tightly enough to dent the face.
- Secure and bury the ends inside the body.

10. Stitch-Count Validation

The written rounds above were digitally checked so that each repeat consumes the full starting round and produces the stated final count. The main body progresses 6 -> 12 -> 18 -> 24 -> 30 -> 36 -> 42 -> 48 -> 54 sts, remains at 54 sts through the face zone, then tapers 54 -> 48 -> 42 -> 36 -> 30 -> 24 -> 18 -> 12 -> 6 sts.

- BLO in Main Body Rnd 8 changes loop placement only; it does not change the stitch count.
- The wing, foot, and beak decrease rounds consume the complete previous round with no unworked stitches.
- The continuous spiral method uses no joining slip stitch or turning chain, so no extra joining stitch is counted.
- Colour is changed only by making separate pieces; there are no hidden stitch-count changes caused by intarsia or carried yarn.

This is an internal-consistency check of the written digital pattern and is not a physical test crochet.

11. Shaping and Proportions

- The body is intentionally widest through Rnds 11-20 so the face and cheeks sit on a broad, rounded front.
- Rnd 8 is worked in BLO to encourage a flatter underside before the body expands into the belly and head.
- The crown decreases are gradual to create a soft dome rather than a pointed top.
- Wings are small, rounded, and positioned near the side midlines so they read as stubby chick wings rather than long arms.
- Feet are broad and low, with shallow toe sculpting, to support the sitting silhouette.
- The beak is lightly stuffed and flattened so it projects gently without becoming spherical.
- The crest is intentionally small and centered so the forehead remains visually clear.

Visual target: The finished silhouette should look round and compact, with the eyes dominating the face, the beak centered below them, the cheeks just outside/below the eyes, and the wings sitting symmetrically at the sides.

12. Colour Changes and Surface Details

Feature	Colour	Method
Main body, wings, crest	Yellow	No colour change; use one yellow throughout each piece.
Beak and feet	Orange	Crochet as separate pieces; do not carry orange through the yellow body.
Cheeks	Pink	Crochet as separate flat circles.
Eyes	Black	Use 16 mm safety eyes or embroidered black ovals.
Eyebrows	Black	Embroider after the face has been checked from the front.

Surface-detail note: There are no stripes, body patches, or facial colour blocks in this design. Keep the yellow forehead clear apart from the eyebrows and crown crest.

13. Placement Maps

Before pinning any feature, confirm BOR = center back (CB) and mark center front (CF) on the opposite side. On the 54-st face rounds, CF is approximately halfway around the round. Right and left below are from the chick's point of view.

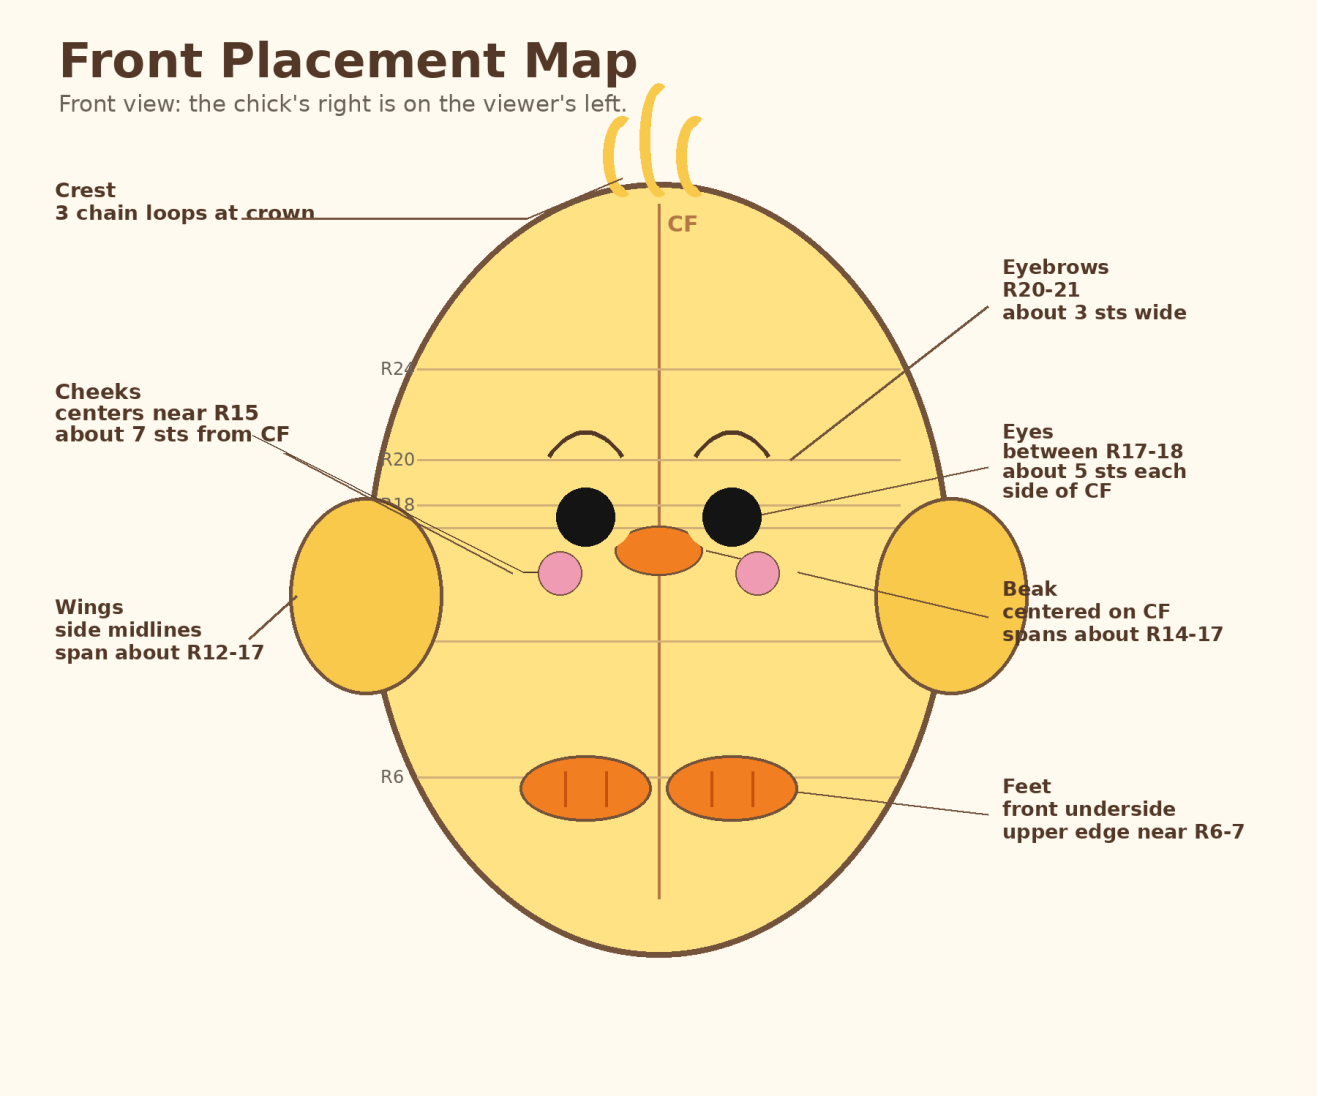

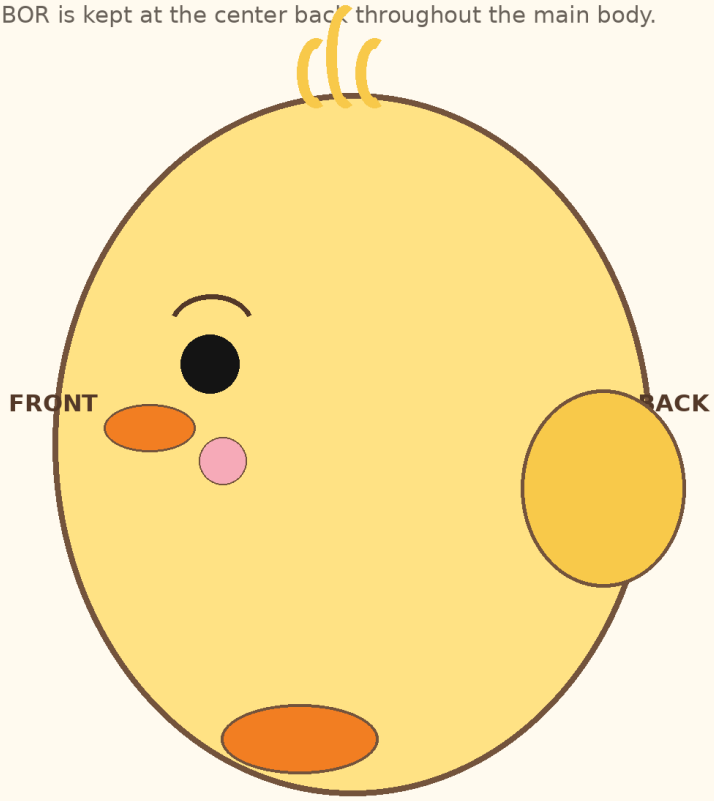

Diagram is a placement guide, not a scale template. Round lines are approximate visual references.

13. Placement Maps - continued

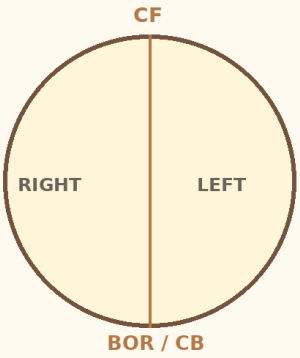

Side and Orientation Map

BOR is kept at the center back throughout the main body.

Side placement targets

- Eye line: between R17-18
- Beak center: about R16
- Cheek center: about R15
- Wing: side midline, R12-17
- Foot: front underside, R3-7
- Crest: crown closure

Top-down orientation

Placement table

Feature	Round range	Horizontal placement	Direction / check
Eyes	Between Rnds 17-18	About 5 sts to each side of CF; about 10 sts center-to-center	Centered over stitch spaces; check before locking washers
Beak	Approx. Rnds 14-17	Centered directly on CF; approx. 6-7 sts wide	Long axis horizontal; rounded side projects forward
Cheeks	Centers near Rnd 15	Approx. 7 sts to each side of CF	Place just outside and slightly below the eyes
Eyebrows	Approx. Rnds 20-21	Centered above each eye; approx. 3 sts wide	Shallow upward arc; mirror both sides
Right wing	Approx. Rnds 12-17	Centered at right side midline	Closure seam faces body; wing angles slightly downward
Left wing	Approx. Rnds 12-17	Centered at left side midline	Mirror right wing
Right foot	Approx. Rnds 3-7	Center about 5-6 sts right of CF at the front underside	Toe grooves face forward; outer toe may angle slightly outward
Left foot	Approx. Rnds 3-7	Center about 5-6 sts left of CF at the front underside	Mirror right foot
Crest	Crown closure	Centered over the top; middle loop follows CF direction	Center loop tallest; side loops slightly shorter

Final placement check: After stuffing, pin the beak, cheeks, wings, and feet before sewing. View the chick from the front, back, both sides, top, and underside. A one-stitch adjustment is acceptable when spiral drift makes the visually centered position slightly different from the counted target.

14. Stuffing and Shaping

Main body

- Begin stuffing after Main Body Rnd 23, while the opening is still wide enough to reach the lower belly.
- Stuff firmly enough to support the round silhouette, but do not stretch the stitches or force fibre through the gaps.
- Pack the lower belly evenly, then press the BLO base area gently against a flat surface so the underside stays flatter than the sides.
- Add extra small tufts behind the cheeks and around the sides of the eye area to keep the face full and even.
- Keep the final 3-4 crown rounds slightly less dense so the crown closure can cinch neatly without a hard lump.
- Before closing Rnd 30, rotate the body in your hands and correct any flat spots or one-sided bulges.

Feet and beak

- Feet: lightly stuff only enough to round the toes. Keep the closed back edge flat so the foot rests against the body.
- Beak: use only a tiny pinch of fibre. It should remain a soft, flattened oval, not a ball.

Unstuffed parts

- Wings remain unstuffed; the folded layers provide the intended thickness.
- Cheeks remain flat and unstuffed.
- Crest loops remain unstuffed and require no wire or reinforcement.

> Do not close any opening until all required safety-eye installation and stuffing for that piece are complete.

15. Assembly Instructions

1. After the main body is fully stuffed and closed, re-mark CF, CB/BOR, and both side midlines with removable guide threads or stitch markers. If using the embroidered-eye alternative, embroider the two black eye ovals now at the previously marked eye centers, secure and bury the yarn ends, and remove the eye-position markers before continuing.
2. Pin the beak centered on CF. Place its upper edge around Rnd 17 and lower edge around Rnd 14. Check that its long axis is horizontal. Sew around the beak perimeter with small whip stitches, taking shallow bites of the yellow body fabric so the seam does not pull inward.
3. Pin the cheek circles with their centers near Rnd 15, about 7 sts to each side of CF. Match their height before sewing. Attach around the outer round with small whip or ladder stitches; keep the circles flat.
4. Embroider one shallow eyebrow above each eye around Rnds 20-21. Step back from the work and confirm the eyebrow arcs match before burying the yarn ends.
5. Make the three-loop crest at the crown. Keep the center loop tallest and the side loops balanced. Add a tiny yellow tack at the base only if the loops fall outward.
6. Pin both wings before sewing either one. Center them on the side midlines across approximately Rnds 12-17. The wing closure edge faces the body and the rounded folded edge faces outward. Angle both wings very slightly downward.
7. Sew the wings securely along the closure edge and around the upper/back portion of the wing where it contacts the body. Do not flatten the entire wing against the body; allow the rounded outer edge to stand away slightly.
8. Pin the sculpted feet to the front underside. Place the upper/back edge near Rnds 6-7, with each center about 5-6 sts from CF. The toe grooves face forward and the outer toe of each foot can angle slightly outward.
9. Sew each foot around its back and side edges, leaving the front toe lobes visually rounded. Recheck that the chick sits evenly on both feet and the flat body base.
10. Remove all temporary guide threads and markers. Adjust stuffing by massaging the body through the crochet fabric if small uneven areas remain.
11. Secure every attachment tail with a small hidden knot or several locked backstitches on the underside of the seam, then bury the yarn end deeply through the stuffed body before trimming.
12. Complete a final front/back/side symmetry check before the item is considered finished.

16. Sewing Methods

Method / use	How to work it	Tension target
Whip stitch - beak, wings, feet	Pass the needle through one outer loop of the attached piece, then take a shallow bite through the body stitch directly beneath it. Repeat around the contact edge.	Pull only until the seam sits flush; over-tightening can dent the plush fabric.
Ladder stitch - optional for cheeks	Alternate tiny horizontal bites along the cheek edge and the body surface so the thread travels like rungs between the two pieces. Pull gently after several stitches.	Best when using smooth yarn and a flatter cheek edge.
Flattened opening closure - feet and beak	Align opposite stitches of the open round into pairs. Whip stitch through both layers from one side to the other.	Keep the closure seam on the back/underside of the part.
Wing crochet closure	After folding the 12-st opening flat, work 1 sc through both aligned layers for each of 6 pairs.	This creates a neat sewing edge that is placed against the body.
Toe sculpting	Pass orange yarn from underside to the front edge, over the foot, and back to the underside at the same groove. Repeat once.	Make only a shallow indentation; do not compress the foot flat.

General seam rules

- Pin paired features first and compare them from more than one angle before sewing.
- Take small, regular stitches rather than long jumps through the body fabric.
- Do not pull seams so tightly that the surrounding crochet puckers.
- Where a tail is buried through stuffing, bring the needle out several centimetres away, tension gently, then trim so the end retracts inside.

17. Final Visual Checklist

[ ] Face is centered and balanced on CF.
[ ] Eyes are level and evenly spaced.
[ ] Beak is centered, horizontal, and gently projected.
[ ] Cheeks are at matching heights and sit outside/below the eyes.
[ ] Eyebrows are similar in width, height, and curve.
[ ] Crest is centered; middle loop is tallest and side loops are balanced.
[ ] Wings are attached at matching heights and matching angles.
[ ] Feet are aligned, toe grooves face forward, and the chick sits evenly.
[ ] Body remains rounded with a flatter underside.
[ ] No visible stuffing shows through the stitches.
[ ] No large crochet holes are visible at decrease rounds.
[ ] No loose attachment seams remain.
[ ] No exposed knots or unsecured yarn tails remain.
[ ] All temporary markers and guide threads have been removed.

18. Troubleshooting

Problem	Practical fix
Stuffing shows through the stitches	Remove some filling and/or use a smaller hook. Firm stitch tension is more effective than forcing in extra stuffing.
Finished chick is too large or too small	Keep all stitch counts the same and adjust hook size, yarn thickness, or tension. A 0.5 mm hook change can make a noticeable difference.
Continuous rounds look uneven or twisted	Keep the BOR marker in the first stitch and count each round. Smooth the body while stuffing; a slight spiral lean is normal.
A visible colour step appears	This design uses separate coloured pieces, so there should be no body colour step. If substituting a colour-change detail, make the change on the final yarn-over of the previous stitch and place it at the back/underside.
Safety eyes look uneven	Before fitting the locking washers, insert both eye posts, set the body down, and compare from the front and top. Move one eye before locking if needed.
Beak is off-center	Re-mark CF from the crown to the base, remove the first few sewing stitches if necessary, and repin the beak on that guide line.
Body leans to one side	Massage stuffing from the fuller side toward the hollow side. Check the flat base and both foot positions before adding more fibre.
Wings look uneven	Match the same round range on both sides and pin both wings completely before sewing either one.
One wing sits higher	Use the side midline and Rnds 12-17 as shared references; unpick only the higher wing and repin it to match.
Crest loops fall forward	Use one tiny yellow tack stitch at the lower side of each loop to keep it upright. No wire is needed.
Beak looks too round	Remove some stuffing, flatten the piece between your fingers, and sew the perimeter closer to the body.
Gaps show around a sewn piece	Add small extra attachment stitches between the existing ones. Catch the body surface shallowly so the seam closes without puckering.
An attachment feels loose	Reinforce the full contact edge with a second pass of small whip stitches, then lock and bury the tail.
Flat base becomes rounded	Redistribute filling away from the center underside and press the BLO base area gently against a flat surface while shaping.
Decrease holes are visible	Use invisible decreases through the front loops only, keep tension firm, and avoid placing a dense lump of stuffing directly behind the decrease.
Feet roll under the body	Reduce foot stuffing, keep the closed seam at the back/underside, and sew the back edge higher on Rnds 6-7 while leaving the toes forward.

19. Printing and Customer Notes

DIGITAL DOWNLOAD ONLY - NO PHYSICAL ITEM WILL BE SHIPPED. This file contains written crochet instructions for making the amigurumi yourself.

- Terminology: Standard US crochet terms.
- Recommended printing: A4 or US Letter. Print at 100% / Actual Size for the most consistent text and diagram appearance. The placement diagrams are guides, not cut-out templates, so no exact printed scale is required.
- Finished measurements are calculated design targets and may vary with materials, hook size, tension, stuffing, and technique.
- No physical prototype or test crochet was used for this edition.
- Personal handmade use is permitted.
- You may sell finished handmade Pudding the Little Chick items made by you in small quantities. Credit to the pattern name is appreciated where practical.
- You may not redistribute, resell, copy, upload, translate, publish, or share this pattern or substantial portions of it, whether free or paid, without authorization.
- Do not present this PDF as your own pattern file or include it as part of another digital product.

Customer-facing reminder

This pattern is intended to guide a real crocheter through a digitally designed reproduction of the supplied chick concept. The final handmade result will naturally reflect the maker's yarn choice, tension, stuffing, and finishing technique.

Pattern complete. Before gifting or selling a finished handmade item, recheck all seams, rigid components, yarn tails, and age-appropriateness for the intended user.
