MILLIE

THE MOUSE

Complete Digital Crochet Amigurumi Pattern

DIGITAL DOWNLOAD ONLY | NO PHYSICAL ITEM WILL BE SHIPPED

Skill level: Confident Beginner

US crochet terminology | Worked mainly in continuous spiral rounds

DIGITAL DOWNLOAD NOTICE

Please read before starting.

IMPORTANT | This file is a digital crochet pattern. It is not a finished amigurumi, toy, or physical product. No physical item will be shipped.

- You must crochet, stuff, assemble, and finish Millie yourself using the written instructions in this pattern.
- All finished measurements are calculated design targets for digital reproduction, not physically guaranteed dimensions.
- Final size can vary with yarn brand, yarn weight, hook size, tension, stuffing density, and individual crochet technique.
- Safety eyes are optional; an embroidered-eye alternative is included for makers who prefer a soft, child-friendlier finish.

Inside this pattern

Section	What it covers
Finished measurements	Target size and proportions
Materials and tools	Yarn, hook, filling, eyes, notions
Gauge and method	Tension, continuous rounds, orientation
Abbreviations	All terms used in the pattern
Construction overview	Pieces, stuffing, assembly order
Complete crochet instructions	Head, ears, body, limbs, belly, face details, tail
Placement maps	Face and body attachment guidance
Stuffing and shaping	How to keep the reference silhouette
Assembly and sewing	Logical joining order and seam methods
Final checklist	Symmetry, stability, finish quality
Troubleshooting	Common amigurumi corrections
Printing and customer notes	Use, sale, and copyright guidance

FINISHED MEASUREMENTS

Calculated design targets using the recommended bulky plush yarn and 4.0 mm hook.

Feature	Target range
Overall seated height	22-24 cm / 8.7-9.4 in, including ears
Height to top of head	18-20 cm / 7.1-7.9 in
Overall width	20-22 cm / 7.9-8.7 in across the ears
Body depth	9-10 cm / 3.5-3.9 in
Head	11.5-12.5 cm / 4.5-4.9 in wide; about 10-11 cm / 3.9-4.3 in high
Body	9-10 cm / 3.5-3.9 in wide; about 10-11 cm / 3.9-4.3 in high
Outer ears	About 6-6.5 cm / 2.4-2.6 in diameter each
Arms	About 5.5-6.5 cm / 2.2-2.6 in long
Legs/feet	About 6-7 cm / 2.4-2.8 in long
Tail	About 8-9 cm / 3.1-3.5 in before curving

SIZE NOTE | These are design targets only. Your finished Millie may be larger or smaller depending on yarn, hook, tension, stuffing, and technique.

Materials and tools

Material / tool	Recommendation
Main yarn	Bulky weight #5 plush/chenille yarn, 100% polyester or similar soft fibre.
Mouse gray	Approx. 100-120 g / 140-170 m.
Blush pink	Approx. 20-30 g / 28-42 m for inner ears, cheeks, nose, paw pads, and tail.
Cream	Approx. 10-15 g / 14-21 m for the belly patch.
Black	Small amount of smooth yarn or embroidery floss for mouth and whiskers.
Hook	4.0 mm crochet hook, or size needed for a firm, stuffing-proof fabric.
Eyes	2 x 12 mm black safety eyes; or embroider eyes with black yarn/floss.
Stuffing	Approx. 50-75 g polyester fibre filling.
Notions	Tapestry needle, stitch markers, long pins, scissors, measuring tape; row counter optional.

SAFETY | Safety eyes, buttons, beads, wire, and other small or rigid parts may not be suitable for children under 3 years. For a softer alternative, embroider the eyes securely with black yarn or embroidery floss. No wire is required for this design.

GAUGE, TENSION & CROCHET METHOD

Gauge and tension

Amigurumi fabric should be firm and dense enough that the stuffing does not show between stitches. Do not pull so tightly that the hook becomes difficult to insert.

PRACTICAL GAUGE | About 14 sc x 14 rounds = 10 x 10 cm / 4 x 4 in using a 4.0 mm hook, worked in continuous spiral rounds. Exact gauge affects finished size and yarn usage; it does not guarantee an exact final measurement.

Method and terminology

- US crochet terminology is used throughout.
- Head, body, ears, arms, legs, paw pads, cheek patches, nose, and tail are worked mainly in continuous spiral rounds unless stated otherwise.
- Place a removable marker in the first stitch of every round. Move the marker up after each completed round.
- For the head and body, use the beginning-of-round (BOR) marker only to track round starts. Continuous spiral rounds naturally shift, so do not treat BOR as a fixed vertical centre-back line. Use the physical CF and CB guide lines described in the pattern for feature placement and assembly.
- Standard yarn-over single crochet is assumed. If you prefer yarn-under single crochet, expect a slightly firmer and potentially smaller result.
- The right side of the crochet fabric faces outward.
- The belly patch is worked flat in rows. Turn after every row; the turning chain does not count as a stitch.

Abbreviations

Abbreviation	Meaning
MR	magic ring
ch	chain
sl st	slip stitch
sc	single crochet
inc	increase: work 2 sc in the same stitch
dec	decrease: work the next 2 stitches together as 1 sc
inv dec	invisible decrease: insert hook through the front loops of the next 2 sts and complete them together as 1 sc
st / sts	stitch / stitches
rnd / rnds	round / rounds
row / rows	row / rows
rep	repeat
FO	fasten off
BOR	beginning of round
CF	centre front
CB	centre back
RS / WS	right side / wrong side

CONSTRUCTION OVERVIEW

Right and left are described from Millie's point of view unless otherwise stated.

Millie is built from separately crocheted pieces and assembled in a seated pose. The head and body both finish with matching 24-stitch openings, allowing a neat neck seam without forcing or gathering.

Piece	Construction
Head x1	Worked in spiral rounds; safety eyes installed before final decreases; firmly stuffed.
Body x1	Worked from lower base upward; firmly stuffed through lower/middle body; 24-st neck opening left open.
Outer ears x2	Gray flat circles; unstuffed.
Inner ears x2	Pink smaller circles sewn to outer ears; unstuffed.
Arms x2	Lightly/moderately stuffed; upper ends kept soft for sewing.
Legs x2	Foot bulb formed first, then narrower leg; moderately stuffed.
Paw pads x2	Pink circles sewn to front of each foot; unstuffed.
Belly patch x1	Cream flat oval-like panel worked in rows; unstuffed.
Cheek patches x2	Small pink circles; unstuffed.
Nose x1	Tiny pink circle lightly pinched into a soft oval.
Tail x1	Pink narrow tube; left unstuffed or only barely filled; curved by a gentle shaping thread.

Recommended assembly order

1. Complete the head, add eyes, nose, mouth, cheeks, whiskers, and ears.
2. Complete and stuff the body; attach the cream belly patch while the body is still easy to handle.
3. Join the 24-st head opening to the 24-st body opening.
4. Attach the legs, then the arms.
5. Attach and curve the tail.
6. Make final symmetry, sitting-balance, and seam checks; bury all tails.

ORIENTATION | BOR marks round starts only and is not used as a fixed placement axis. For the head and body, establish physical centre front (CF) and centre back (CB) with removable contrasting-yarn guide threads, independent of BOR. Keep these physical guides aligned vertically and use them for all face, ear, belly, limb, tail, and head-to-body placement. When counting left/right placements, always imagine you are looking out from Millie's face.

COMPLETE WRITTEN PATTERN - HEAD

Gray yarn. Work in continuous spiral rounds.

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2	Inc in each st around.	12
3	(Sc in next st, inc in next st) 6 times.	18

9	(Sc in next 7 sts, inc in next st) 6 times.	54
10-16	Sc in each st around.	54
17	(Sc in next 7 sts, inv dec) 6 times.	48
18	Sc in each st around.	48
19	(Sc in next 6 sts, inv dec) 6 times.	42
20	Sc in each st around.	42
21	(Sc in next 5 sts, inv dec) 6 times.	36
22	(Sc in next 4 sts, inv dec) 6 times.	30
23	(Sc in next 3 sts, inv dec) 6 times. FO, leaving a 40 cm / 16 in tail.	24

EYES - PAUSE AFTER RND 16 | BOR is used only to mark the start of the round. Choose the intended physical centre front (CF) of the head independently of BOR and mark it with a removable vertical strand of contrasting scrap yarn. Place a second removable guide directly opposite at physical centre back (CB). Keep these guides in place for the remaining head placement steps. Insert 12 mm safety eyes between Rnds 13 and 14, with the eye centres about 5 sts to each side of physical CF (about 10 sts apart total). Check from the front before securing the washers. If embroidering the eyes, mark these positions now and embroider after stuffing.

STUFFING | Begin stuffing after Rnd 21. Fill the crown and cheeks firmly without stretching the stitches. Keep the Rnd 23 neck opening moderately stuffed so it remains flexible for the head-to-body seam. Leave the 24-st opening open.

EARS & FACE DETAILS

Outer ear - make 2 in gray

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2	Inc in each st around.	12
3	(Sc in next st, inc in next st) 6 times.	18
4	(Sc in next 2 sts, inc in next st) 6 times.	24
5	(Sc in next 3 sts, inc in next st) 6 times.	30
6	Sc in each st around. Sl st in next st, FO, leaving a 45 cm / 18 in tail for sewing.	30

Inner ear - make 2 in blush pink

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2	Inc in each st around.	12
3	(Sc in next st, inc in next st) 6 times.	18
4	(Sc in next 2 sts, inc in next st) 6 times. Sl st in next st and FO, leaving a 30 cm / 12 in tail.	24

Sew one pink inner ear centrally to the RS of each gray outer ear, leaving the gray Rnd 5-6 area visible as a border. Do not stuff. At the bottom of each completed ear, pinch about 4-5 sts together to make a shallow cup and tack the fold securely.

Cheek patches - make 2 in blush pink

Rnd/Row	Instruction	Sts
1	6 sc in MR. Sl st in first sc, FO, leaving a 20 cm / 8 in sewing tail.	6

Nose - make 1 in blush pink

Rnd/Row	Instruction	Sts
1	5 sc in MR. Sl st in first sc, FO, leaving a 20 cm / 8 in sewing tail.	5

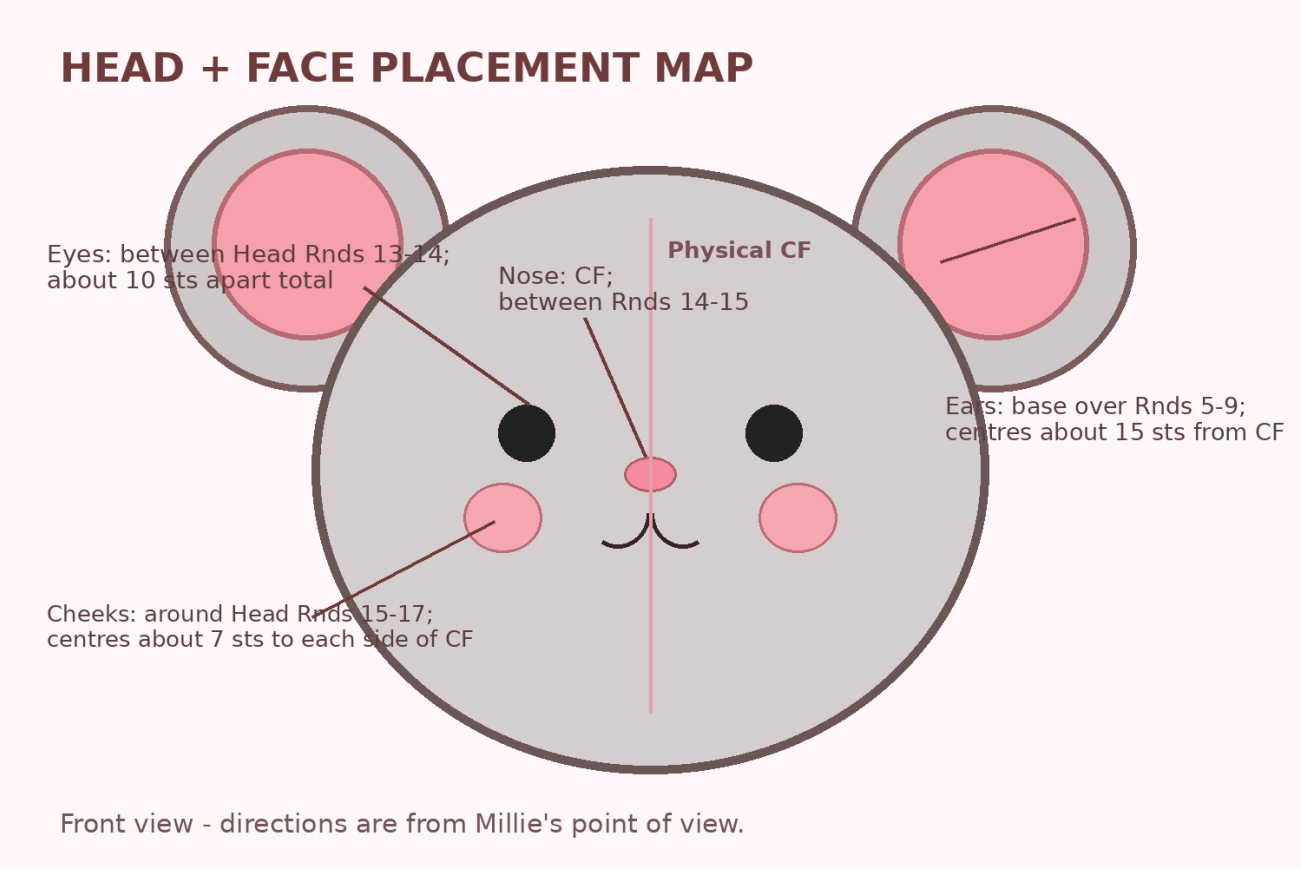

Before sewing the nose, pull its beginning tail snug and gently pinch the small circle horizontally into a soft oval.

Mouth and whiskers

- With smooth black yarn or embroidery floss, stitch a short vertical line downward from the nose, then make a small curved smile to each side.
- Add 3 whiskers on each cheek, emerging near Head Rnds 16-18. Keep them approximately 2.5-3.5 cm / 1-1.4 in long. Embroidered whiskers are recommended instead of wire.

HEAD + FACE PLACEMENT MAP

Use the physical CF and CB guide lines established on the head. Do not derive CF or CB from the BOR marker.

Pin the completed ears before sewing. Place each ear base over approximately Head Rnds 5-9, with the ear centre about 15 sts to the corresponding side of CF when measured around Head Rnd 7. Tilt the top edge outward slightly. Check that both ears are equally visible from the front and equally spaced from CB when viewed from behind.

Sew the nose at CF between Head Rnds 14 and 15. Sew each cheek patch around Head Rnds 15-17, centred about 7 sts to each side of CF when measured around Head Rnd 16. Keep the mouth directly below the nose and the whiskers clear of the cheek patches.

VISUAL CHECK | After stuffing, the face can shift by 1-2 stitches. Use the stitch positions as a starting guide, then make tiny placement adjustments if needed to keep the face level, centred, and symmetrical.

COMPLETE WRITTEN PATTERN - BODY

Gray yarn. Work from the lower base upward in continuous spiral rounds.

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2	Inc in each st around.	12
3	(Sc in next st, inc in next st) 6 times.	18
4	(Sc in next 2 sts, inc in next st) 6 times.	24
5	(Sc in next 3 sts, inc in next st) 6 times.	30
6	(Sc in next 4 sts, inc in next st) 6 times.	36
7	(Sc in next 5 sts, inc in next st) 6 times.	42
8-13	Sc in each st around.	42
14	(Sc in next 5 sts, inv dec) 6 times.	36
15-16	Sc in each st around.	36
17	(Sc in next 4 sts, inv dec) 6 times.	30
18	Sc in each st around.	30
19	(Sc in next 3 sts, inv dec) 6 times.	24
20-21	Sc in each st around. FO, leaving a 75 cm / 30 in tail for the neck seam.	24

STUFFING | Begin stuffing after Rnd 17. Keep the lower base broad and flat, the middle body firm and rounded, and Rnds 19-21 only moderately stuffed so the neck opening stays flexible. Leave the 24-st opening open.

BODY ORIENTATION | Body Rnd 1 begins at the underside. Round numbers increase upward toward the 24-st neck opening at Rnd 21. Use BOR only to track round starts. After stuffing and shaping the body, establish physical centre back (CB) with a removable vertical strand of contrasting scrap yarn and place a second guide directly opposite at physical centre front (CF). Use these physical guides for the belly patch, limbs, tail, and head-to-body alignment.

Belly patch - cream yarn, worked flat in rows

Rnd/Row	Instruction	Sts
1	Ch 6. Sc in 2nd ch from hook and in each ch across. Ch 1, turn.	5
2	Inc in first st, sc in next 3 sts, inc in last st. Ch 1, turn.	7
3	Inc in first st, sc in next 5 sts, inc in last st. Ch 1, turn.	9
4-8	Sc in each st across. Ch 1, turn.	9
9	Dec, sc in next 5 sts, dec. Ch 1, turn.	7
10	Dec, sc in next 3 sts, dec. Ch 1, turn.	5
11	Sc in each st across. FO, leaving a 45 cm / 18 in sewing tail.	5

Lightly steam-free shape the patch with your fingers only; do not stretch. Pin it vertically on CF with Row 1 toward the lower body and Row 11 toward the chest, spanning approximately Body Rnds 6-16. Sew around the outer edge with small whip stitches.

ARMS, LEGS & PAW PADS

Arms - make 2 in gray

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2	Inc in each st around.	12
3-6	Sc in each st around.	12
7	(Sc in next 4 sts, inv dec) 2 times.	10
8-9	Sc in each st around. FO, leaving a 40 cm / 16 in sewing tail.	10

Stuff Rnds 1-6 lightly to moderately. Leave Rnds 7-9 only lightly stuffed so the arm can lie naturally against the body. Do not close the top; flatten it gently during sewing.

Legs / feet - make 2 in gray

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2	Inc in each st around.	12
3	(Sc in next st, inc in next st) 6 times.	18
4-5	Sc in each st around.	18
6	(Sc in next st, inv dec) 6 times.	12
7-9	Sc in each st around. FO, leaving a 50 cm / 20 in sewing tail.	12

Stuff the rounded foot section (Rnds 1-5) firmly enough to hold shape without stretching the stitches. Stuff the narrower leg section moderately. Keep the top round slightly soft for sewing.

Paw pads - make 2 in blush pink

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2	Inc in each st around. Sl st in next st and FO, leaving a 25 cm / 10 in sewing tail.	12

Flatten each leg so the bulbous foot points forward. Sew one pink paw pad to the centre front of each foot over approximately Leg Rnds 1-4. Keep the pad flat and do not over-tighten the seam.

TAIL & BODY PLACEMENT

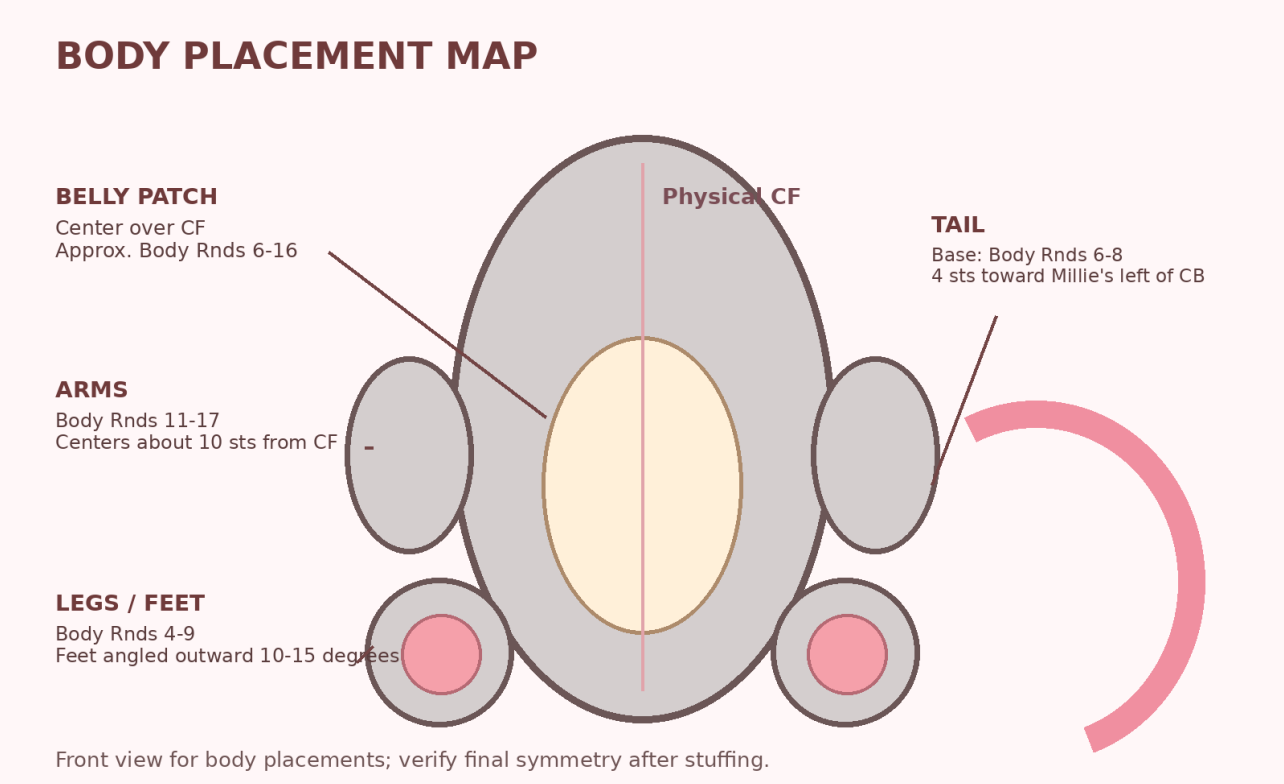

Tail - make 1 in blush pink

Rnd/Row	Instruction	Sts
1	6 sc in MR.	6
2-12	Sc in each st around. FO, leaving a 55 cm / 22 in sewing tail.	6

Leave the tail unstuffed for a flexible, reference-like curve. If you want a slightly rounder tail, add only a very thin wisp of stuffing through the first 4-6 rounds; do not pack it firmly.

Curving the tail without wire

1. Thread a separate 45 cm / 18 in strand of pink yarn onto a tapestry needle.
2. Run the needle in and out along one side of the tail from about Rnd 3 to Rnd 11, catching only the inside of the crochet fabric.
3. Gently pull until the tail forms a soft J-shaped curve. Do not gather so tightly that the tube puckers.
4. Secure the shaping strand inside the tail and bury the ends.

Use the physical CF and CB guide lines established on the stuffed body; BOR is not used as the placement axis.

Body placements are measured after stuffing. Keep the belly patch on CF. Attach arms over approximately Body Rnds 11-17, with centres about 10 sts to each side of CF measured around Body Rnd 14. Attach legs over Body Rnds 4-9, with centres about 11 sts to each side of CF measured around Body Rnd 7. Angle the feet outward by about 10-15 degrees.

Attach the tail base over Body Rnds 6-8, about 4 sts toward Millie's left from CB. Let the tail curve upward and then outward so it remains visible from the front 3/4 view without forcing the body off balance.

STUFFING & SHAPING

Use the descriptions below rather than a fixed gram amount; yarn and tension change the internal volume.

Part	Stuffing target
Head	Firmly stuffed without stretching stitches. Add extra filling to the cheeks and crown; keep neck opening moderately soft.
Body	Firm through lower and middle body, with a broad flat underside. Upper body moderately stuffed to accept neck seam.
Arms	Light to moderate. Upper 2-3 rounds soft.
Legs	Foot section moderate to firm; leg section moderate; top round soft.
Ears / patches / pads	Unstuffed.
Tail	Unstuffed or barely filled. Shape with the running-thread method, not wire.

Reference-inspired shaping checks

- Head should remain wider than the body and softly rounded, not pointed at the crown.
- Cheeks should read as full and friendly without creating a separate muzzle projection.
- Body should have a broad seated lower half and a gently narrower upper chest.
- Feet should sit in front of the body and angle slightly outward; do not bury the paw pads underneath the body.
- Ears should be large and upright with a slight outward tilt, not flat against the head.
- Tail should curve visibly to the side while the body base remains flat and stable.

NO NEEDLE SCULPTING REQUIRED | The face shape is produced by the head shaping, stuffing distribution, and placement of the nose/cheeks. Optional light finger shaping is enough; no sculpting thread is required.

ASSEMBLY INSTRUCTIONS

Pin every piece before sewing. Check from front, back, top, underside, and both sides.

1. Finish the head: install or embroider eyes, sew the nose and cheeks, embroider mouth and whiskers, then pin and sew the ears.
2. Sew the cream belly patch to the stuffed body, keeping it centred over CF and smooth against the crochet fabric.
3. Join head to body: align Head Rnd 23 (24 sts) with Body Rnd 21 (24 sts), matching physical CF on the head to physical CF on the body and physical CB to physical CB. Pin the openings together at CF, CB, and both sides. Using the long body tail, sew one stitch from the head opening to one stitch from the body opening all the way around with a ladder or whip stitch. Once the alignment is securely pinned or partially sewn, remove the temporary CF and CB guide threads before they can become trapped in the seam. Before closing the final 3-4 cm / 1-1.5 in, add or remove a small amount of stuffing to correct neck firmness, then finish the seam.
4. Pin the legs over Body Rnds 4-9. Keep the feet level with each other and angled slightly outward. Sew around the upper leg edge with small whip stitches; re-check seated balance before knotting off.
5. Pin the arms over Body Rnds 11-17. Keep their top edges at equal height and let the paws rest naturally toward the front belly. Sew securely without flattening the body.
6. Pin the tail base over Body Rnds 6-8, slightly toward Millie's left of CB. Sew all the way around the 6-st tail base, then orient the curve upward/outward.
7. Check ear height, eye level, limb symmetry, belly centring, and sitting balance. Adjust any seam before fully burying the yarn tail.
8. Secure every yarn tail with two small hidden passes through the stuffing area, then trim only after the end has been buried several centimetres inside the amigurumi.

PINNING TIP | Use at least 3-4 pins around each limb or ear. If the first pin looks correct but the piece twists after sewing, add two opposite pins before starting the seam.

SEWING METHODS

Whip stitch - limbs, ears, patches, tail

Pass the tapestry needle through a stitch on the attached piece and then through a corresponding stitch or horizontal bar on the base piece. Repeat at close, even intervals. Pull only until the seam sits flush; over-tightening can create dents.

Ladder stitch - head-to-body seam

Pick up a small horizontal bar from the edge of the head opening, then a matching bar from the body opening. Alternate from head to body. After every 4-6 stitches, gently draw the yarn so the seam closes neatly. Because both openings contain 24 sts, match one head stitch to one body stitch around the entire neck.

Surface attachment - belly patch, cheeks, paw pads

Keep the flat piece against the surface and stitch just inside its outer edge. Catch only enough of the base fabric to hold securely; avoid passing the needle through the full body cavity with every stitch, which can distort the stuffing.

Ear base pinch

After the pink inner ear is sewn on, fold the lower 4-5 gray stitches slightly toward each other. Tack through both layers 2-3 times. This creates a shallow cup and helps the ear stand upright when attached to the head.

How firmly to tighten

- Seams should be snug enough that no stuffing gap is visible.
- Stop tightening if the crochet edge begins to pucker or the base fabric forms a deep groove.
- For limbs and ears, secure the seam at the exact angle you want before burying the tail.

DIGITAL STITCH-COUNT VALIDATION

The written construction was digitally checked so each shaping sequence consumes the available stitches and reaches the stated final count. This is an internal consistency check only and is not a substitute for a physical test crochet.

Piece	Verified count path
Head	6 -> 12 -> 18 -> 24 -> 30 -> 36 -> 42 -> 48 -> 54; decreases 54 -> 48 -> 42 -> 36 -> 30 -> 24.
Body	6 -> 12 -> 18 -> 24 -> 30 -> 36 -> 42; decreases 42 -> 36 -> 30 -> 24; finishes with a 24-st neck opening.
Outer ear	6 -> 12 -> 18 -> 24 -> 30; final even round remains 30.
Inner ear	6 -> 12 -> 18 -> 24.
Arm	6 -> 12; final shaping 12 -> 10.
Leg	6 -> 12 -> 18; foot-to-leg shaping 18 -> 12.
Paw pad	6 -> 12.
Cheek	6.
Nose	5.
Tail	6 sts maintained through Rnd 12.
Belly patch	5 -> 7 -> 9; even rows; then 9 -> 7 -> 5.

Final visual checklist

- Face is centred and balanced; eyes are level and evenly spaced.
- Nose and mouth are centred on CF; whiskers are similar in length and angle.
- Cheek patches sit at matching height and distance from CF.
- Ears are symmetrical, upright, and angled slightly outward.
- Belly patch is straight and centred.
- Arms and legs are attached at matching heights; feet face forward with a slight outward angle.
- Paw pads face forward and are not hidden underneath the body.
- Tail is attached on the intended rear-side position and curves in the intended direction.
- Millie sits without rocking excessively; the body base is broad rather than rounded.
- No stuffing shows through large gaps; decreases do not leave obvious holes.
- No loose seams, exposed knots, unburied yarn tails, or temporary markers remain.

TROUBLESHOOTING

Problem	Practical fix
Stuffing shows through	Use a smaller hook or firmer tension. Remove a little stuffing if the stitches are being stretched open.
Finished mouse is too large or too small	Check yarn weight and hook size first. A different yarn brand or tighter/looser tension can change all dimensions.
Continuous-round BOR shifts diagonally	This is normal in spiral crochet. Keep the BOR marker in the first stitch of each round for round counting only; do not try to keep BOR in a fixed vertical position. Use the physical CF and CB guide threads for placement.
Visible colour-change step	This design uses mostly separate colour pieces. For any yarn join, place the join at the back/underside and pull the new colour through the final loop of the previous stitch.
Eyes look uneven	Before securing safety-eye washers, count from CF and compare from front/top views. For embroidered eyes, remove and restitch before adding face details.
Nose or mouth looks off-centre	Use CF as the vertical guide. Move the nose by 1 stitch if stuffing shifted the surface.
Head leans to one side	Check the 24-to-24 neck seam. Reopen a short section and equalize seam tension or adjust stuffing around the neck.
One limb sits higher	Count the body rounds again, repin both limbs together, and compare from the front before resewing.
One ear sits higher	Check that both ear bases span the same head rounds and that the lower pinch is the same width.
Tail points the wrong way	Re-shape the running thread or rotate the tail base before the seam is fully secured.
Gap around a sewn piece	Add smaller, closer whip stitches and catch a full edge loop without pulling the base fabric inward.
Loose attachment	Resew through stronger edge stitches and use more attachment points. Bury the final tail deeply.
Flat base becomes rounded	Remove some stuffing from the centre underside and redistribute it toward the lower sides while pressing the base flat.
Visible holes after decreases	Use invisible decreases through the front loops and avoid overstuffing immediately behind the decrease section.

PRINTING & CUSTOMER NOTES

Printing

- This pattern is designed for A4 pages (210 x 297 mm). Print at 100% / Actual Size for the intended layout.
- For US Letter paper, choose Fit to Page. No physical templates require exact-scale printing, so minor scaling does not affect the crochet instructions.
- You can also follow the PDF digitally from a phone, tablet, or computer.

Customer use notice

- DIGITAL DOWNLOAD ONLY - NO PHYSICAL ITEM WILL BE SHIPPED.
- US crochet terminology is used.
- This pattern was digitally designed and checked for stitch-count consistency. No physical prototype or test crochet was used.
- Finished size is a calculated design target and may vary with materials and technique.
- You may make Millie for personal use, gifts, and small-scale sale of finished handmade items you personally crochet.
- You may not redistribute, resell, copy, upload, share, translate, or reproduce this pattern or substantial parts of it without permission from the pattern seller.
- When selling finished handmade items, crediting the pattern source is appreciated where practical.

QUICK REFERENCE | Main hook: 4.0 mm | Main yarn: bulky #5 plush/chenille | Eyes: 12 mm | Head opening: 24 sts | Body opening: 24 sts | Main method: continuous spiral rounds | Skill level: Confident Beginner

Before you start

Read the complete pattern once before crocheting. Mark the BOR from the first round of the head and body and move the marker after each completed round. Use BOR for round counting only. Establish the removable physical CF and CB guide lines at the stages specified in the Head and Body instructions, use those guides for placement and alignment, and remove them before they can become trapped during final assembly.

Enjoy crocheting Millie the Mouse!

Small mouse, big heart.
