2. Digital Download Notice

PLEASE READ BEFORE STARTING

This product is a digital crochet pattern. It is not a finished amigurumi or physical toy, and no physical item will be shipped. You will crochet, stuff, sew, and finish the penguin yourself from the written instructions in this PDF.

Project at a Glance

Item	Plan
Construction	Separate head and body; sewn-on face lobes, belly, wings, feet, cheeks, and beak.
Main method	Continuous spiral single crochet. No turning unless specifically stated (none in this design).
Yarn	Category 6 / super bulky chenille or plush yarn.
Hook	5.0 mm (H-8) recommended; adjust if needed for dense fabric.
Eyes	Two 16 mm safety eyes, or embroidered black eyes.
Target height	Approx. 24-27 cm / 9.5-10.5 in.
Assembly	Face first, then body, belly, head-to-body join, feet, and wings.

3. Finished Measurements

The following are calculated design targets when using the recommended yarn, hook, and a firm amigurumi tension. They are not guaranteed exact dimensions.

Feature	Target size
Overall height	24-27 cm / 9.5-10.5 in
Overall width incl. wings	18-20 cm / 7-8 in
Body depth	12-14 cm / 4.75-5.5 in
Head	14-15.5 cm wide × 12-13.5 cm high
Body	12.5-14 cm wide × 11-13 cm high
Face lobe, each	6.5-7.5 cm × 5-6 cm
Belly patch	9-10.5 cm high × 7.5-8.5 cm wide
Wing, each	6-7 cm long × 4-5 cm wide
Foot, each	4-4.5 cm long × 2.5-3 cm high
Beak	3-3.5 cm wide × 2-2.5 cm high
Cheek disc, each	2-2.5 cm diameter

Digital Design Reference

Reference views show the intended front, side, and back silhouette. Use them for visual comparison while pinning pieces; do not treat the rendered proportions as physically guaranteed measurements.

4. Materials and Tools

Colour	Approx. amount	Used for
Charcoal plush yarn	Approx. 220-260 g / 210-260 m	Head, body, and wings
White plush yarn	Approx. 90-120 g / 85-120 m	Face lobes and belly patch
Orange plush yarn	Approx. 35-45 g / 35-45 m	Beak and feet
Pink plush yarn	Approx. 10-15 g / 10-15 m	Cheeks

- Recommended yarn: Category 6 / super bulky chenille or plush yarn, preferably smooth enough that individual stitches can still be identified.
- Crochet hook: 5.0 mm (H-8), or the size needed to create a firm, stuffing-safe fabric.
- Polyester fibre filling: approx. 180-250 g, depending on desired firmness and yarn density.
- Two 16 mm safety eyes with secure washers.
- Black yarn or embroidery floss for an embroidered-eye alternative; optional small amount of white thread for eye highlights.
- Tapestry needle suitable for plush yarn, stitch markers, straight pins, scissors, measuring tape, and optional row counter.

SAFETY WARNING

Safety eyes, buttons, beads, wire, and other small or rigid parts may not be suitable for children under three years old. If the finished item is intended for a young child, use embroidered eyes instead of safety eyes and omit other small or rigid components. This pattern has not been physically safety-tested or certified. No wire or rigid internal reinforcement is required for this design.

5. Gauge and Tension

Amigurumi fabric should be firm and dense so the stuffing does not show through. Avoid pulling the yarn so tightly that the hook becomes difficult to insert, especially with chenille yarn.

- **Design-target gauge:** about 13 sc and 14 rnds = 10 cm / 4 in over the crocheted surface in continuous spiral single crochet with a 5.0 mm hook.
- **How to check:** make a small 24-st tube in continuous spiral sc, work at least 16 rounds, add only a light amount of stuffing, and measure across the fabric surface without stretching.
- **If your fabric is loose:** use a smaller hook or firmer tension.
- **If your fabric is very stiff or tiny:** use a slightly larger hook or relax your tension.

Exact gauge affects final size and yarn usage. It does not guarantee an exact finished measurement.

6. Crochet Method and Terminology

- US crochet terminology is used throughout.
- All pieces are worked in continuous spiral rounds unless the instructions say otherwise. Do not join with a slip stitch at the end of a round.
- Place the beginning-of-round marker in the first stitch of each round and move it up after every completed round.
- Keep the BOR at the back or underside of each piece whenever practical. For the head and body, BOR is treated as centre back (CB).
- Standard yarn-over single crochet is assumed. If you prefer yarn-under single crochet for a tighter X-shaped texture, use it consistently throughout; the finished size may be slightly smaller.
- The right side / finished side of the crochet fabric faces outward.
- No rows are turned in this pattern; the oval pieces are crocheted around both sides of a foundation chain in continuous rounds.

7. Abbreviations

Abbreviation	Meaning
MR	magic ring
ch	chain
sc	single crochet
inc	increase: work 2 sc in the same stitch
inv dec	invisible decrease: insert hook through the front loops of the next 2 stitches and complete them together as 1 sc
BLO	back loop only
st / sts	stitch / stitches
rnd / rnds	round / rounds
FO	fasten off
BOR	beginning of round
CF	centre front
CB	centre back
x N	repeat the preceding bracketed sequence N times

8. Construction Overview

- Head: crocheted separately in Charcoal, stuffed firmly, and left open at 36 sts for joining to the body.
- Body: crocheted separately from a flat BLO-rimmed base upward, stuffed firmly, and left open at 36 sts at the neck.
- Face: two White oval face lobes are sewn onto the Charcoal head; the Charcoal fabric intentionally remains visible between their upper inner edges to create the forehead point shown in the reference.
- Belly: one White oval patch is sewn to the front of the body.
- Beak: one lightly stuffed Orange oval piece.
- Cheeks: two small Pink discs, unstuffed.
- Wings: two Charcoal pieces, unstuffed and flattened before sewing.
- Feet: two Orange oval pieces, lightly stuffed and attached at the front base.
- Right and left are described from the amigurumi's point of view. Keep the head and body neck openings accessible until facial hardware and stuffing are complete.

9. Complete Written Crochet Pattern

9A. Head — make 1

Work from the crown down toward the neck. Keep BOR at centre back. Do not fasten off until the face has been positioned and the eyes installed through the still-open neck.

Rnd	Instruction	Count
1	With Charcoal, make 6 sc in MR.	6
2	Inc in each st around.	12
3	(Sc in next st, inc in next st) x 6.	18
4	(Sc in next 2 sts, inc in next st) x 6.	24
5	(Sc in next 3 sts, inc in next st) x 6.	30
6	(Sc in next 4 sts, inc in next st) x 6.	36
7	(Sc in next 5 sts, inc in next st) x 6.	42
8	(Sc in next 6 sts, inc in next st) x 6.	48
9	(Sc in next 7 sts, inc in next st) x 6.	54
10	(Sc in next 8 sts, inc in next st) x 6.	60
11	Sc in each st around.	60
12	Sc in each st around.	60
13	Sc in each st around.	60
14	Sc in each st around.	60
15	Sc in each st around.	60
16	Sc in each st around.	60
17	Sc in each st around.	60
18	Sc in each st around.	60
19	(Sc in next 8 sts, inv dec) x 6.	54
20	(Sc in next 7 sts, inv dec) x 6.	48
21	(Sc in next 6 sts, inv dec) x 6.	42
22	(Sc in next 5 sts, inv dec) x 6.	36

After Rnd 22: do not close. Leave the 36-st neck opening accessible. If using safety eyes, complete the face placement and install the washers before stuffing firmly. Once the face is secured, stuff the crown and cheeks firmly without stretching the stitches; leave the last 1-2 rounds slightly softer for a smooth neck join. FO with a 45 cm / 18 in tail for sewing the head to the body.

9B. Face Lobes — make 2

Each lobe forms one half of the white face mask. The ovals are sewn on with a slight inward tilt; they are not joined to each other before attachment.

Rnd	Instruction	Count
Foundation	With White, ch 6. Work around both sides of the foundation chain; do not turn.	-
1	Starting in 2nd ch from hook: sc in next 4 ch, 3 sc in last ch; rotate to work along underside of chain, sc in next 3 ch, 2 sc in final ch.	12
2	Inc in next st, sc in next 3 sts, inc in each of next 3 sts, sc in next 3 sts, inc in each of next 2 sts.	18
3	(Sc in next st, inc in next st), sc in next 3 sts, (sc in next st, inc in next st) x 3, sc in next 3 sts, (sc in next st, inc in next st) x 2.	24
4	(Sc in next 2 sts, inc in next st), sc in next 3 sts, (sc in next 2 sts, inc in next st) x 3, sc in next 3 sts, (sc in next 2 sts, inc in next st) x 2.	30
5	Sc in each st around.	30

After Rnd 5: FO, leaving a 45 cm / 18 in sewing tail on each lobe. Do not stuff. Gently flatten without stretching the outer edge.

9C. Beak — make 1

The beak is a small oval tube with a softly rounded front.

Rnd	Instruction	Count
Foundation	With Orange, ch 5. Work around both sides of the foundation chain; do not turn.	-
1	Starting in 2nd ch from hook: sc in next 3 ch, 3 sc in last ch; rotate to work along underside of chain, sc in next 2 ch, 2 sc in final ch.	10
2	Inc in next st, sc in next 2 sts, inc in each of next 3 sts, sc in next 2 sts, inc in each of next 2 sts.	16
3	Sc in each st around.	16
4	(Sc in next 2 sts, inv dec) x 4.	12

After Rnd 4: add only a small pinch of stuffing. Flatten the open edge slightly and FO with a 30 cm / 12 in sewing tail.

9D. Cheeks — make 2

These small discs are attached flat to the face.

Rnd	Instruction	Count
1	With Pink, make 6 sc in MR.	6
2	Inc in each st around.	12
3	Sc in each st around.	12

After Rnd 3: FO with a 25 cm / 10 in sewing tail. Do not stuff.

9E. Body — make 1

Work from the centre of the underside upward. Rnd 10 is worked in BLO to create a turning rim that helps the base sit flatter.

Rnd	Instruction	Count
1	With Charcoal, make 6 sc in MR.	6
2	Inc in each st around.	12
3	(Sc in next st, inc in next st) x 6.	18
4	(Sc in next 2 sts, inc in next st) x 6.	24
5	(Sc in next 3 sts, inc in next st) x 6.	30
6	(Sc in next 4 sts, inc in next st) x 6.	36
7	(Sc in next 5 sts, inc in next st) x 6.	42
8	(Sc in next 6 sts, inc in next st) x 6.	48
9	(Sc in next 7 sts, inc in next st) x 6.	54
10	Sc in BLO of each st around.	54
11	Sc in each st around.	54
12	Sc in each st around.	54
13	Sc in each st around.	54
14	Sc in each st around.	54
15	Sc in each st around.	54
16	(Sc in next 7 sts, inv dec) x 6.	48
17	Sc in each st around.	48
18	Sc in each st around.	48
19	(Sc in next 6 sts, inv dec) x 6.	42
20	Sc in each st around.	42
21	Sc in each st around.	42
22	(Sc in next 5 sts, inv dec) x 6.	36
23	Sc in each st around.	36

Stuffing: after Rnd 18, begin adding fibre filling in small pieces. Keep the base broad and flat while filling the lower body. After Rnd 23, finish stuffing firmly but keep the uppermost 1-2 rounds slightly softer so the head-body seam can close neatly. FO with a 45 cm / 18 in tail if you prefer to use the body tail for the neck join.

9F. Belly Patch — make 1

This oval forms the large white front belly panel.

Rnd	Instruction	Count
Foundation	With White, ch 8. Work around both sides of the foundation chain; do not turn.	-
1	Starting in 2nd ch from hook: sc in next 6 ch, 3 sc in last ch; rotate to work along underside of chain, sc in next 5 ch, 2 sc in final ch.	16
2	Inc in next st, sc in next 5 sts, inc in each of next 3 sts, sc in next 5 sts, inc in each of next 2 sts.	22
3	(Sc in next st, inc in next st), sc in next 5 sts, (sc in next st, inc in next st) x 3, sc in next 5 sts, (sc in next st, inc in next st) x 2.	28
4	(Sc in next 2 sts, inc in next st), sc in next 5 sts, (sc in next 2 sts, inc in next st) x 3, sc in next 5 sts, (sc in next 2 sts, inc in next st) x 2.	34
5	(Sc in next 3 sts, inc in next st), sc in next 5 sts, (sc in next 3 sts, inc in next st) x 3, sc in next 5 sts, (sc in next 3 sts, inc in next st) x 2.	40
6	Sc in each st around.	40

After Rnd 6: FO with a 60 cm / 24 in sewing tail. Do not stuff. Flatten gently and keep the longer axis vertical during placement.

9G. Wings — make 2

The MR end forms the rounded lower tip. The final 8-st opening forms the narrow shoulder edge.

Rnd	Instruction	Count
1	With Charcoal, make 6 sc in MR.	6
2	Inc in each st around.	12
3	Sc in each st around.	12
4	Sc in each st around.	12
5	Sc in each st around.	12
6	Sc in each st around.	12
7	(Sc in next 4 sts, inv dec) x 2.	10
8	Sc in each st around.	10
9	(Sc in next 3 sts, inv dec) x 2.	8

After Rnd 9: FO with a 40 cm / 16 in sewing tail. Do not stuff. Flatten each wing so the BOR seam lies toward the back. The wing should remain soft and slightly curved.

9H. Feet — make 2

The long axis of each oval runs left-to-right across the front base.

Rnd	Instruction	Count
Foundation	With Orange, ch 5. Work around both sides of the foundation chain; do not turn.	-
1	Starting in 2nd ch from hook: sc in next 3 ch, 3 sc in last ch; rotate to work along underside of chain, sc in next 2 ch, 2 sc in final ch.	10
2	Inc in next st, sc in next 2 sts, inc in each of next 3 sts, sc in next 2 sts, inc in each of next 2 sts.	16
3	Sc in each st around.	16
4	Sc in each st around.	16
5	(Sc in next 2 sts, inv dec) x 4.	12

After Rnd 5: add a light amount of stuffing so the foot is rounded but still compressible. Flatten the open edge and FO with a 35 cm / 14 in sewing tail.

10. Stitch-Count Validation

Every written shaping round was digitally checked before layout to confirm that the starting stitches are fully consumed and that the stated final count follows from the increases or invisible decreases. Foundation-chain ovals were also checked so both sides of the chain and all end increases are accounted for.

Piece	Count path	Written length
Head	6 → 60 → 36 sts	22 rnds
Body	6 → 54 → 36 sts	23 rnds
Face lobe, each	12 → 30 sts	5 rnds + foundation
Belly patch	16 → 40 sts	6 rnds + foundation
Beak	10 → 16 → 12 sts	4 rnds + foundation
Cheek, each	6 → 12 sts	3 rnds
Wing, each	6 → 12 → 8 sts	9 rnds
Foot, each	10 → 16 → 12 sts	5 rnds + foundation

This digital count check confirms internal arithmetic consistency only; it is not a physical test crochet.

11. Shaping and Proportions

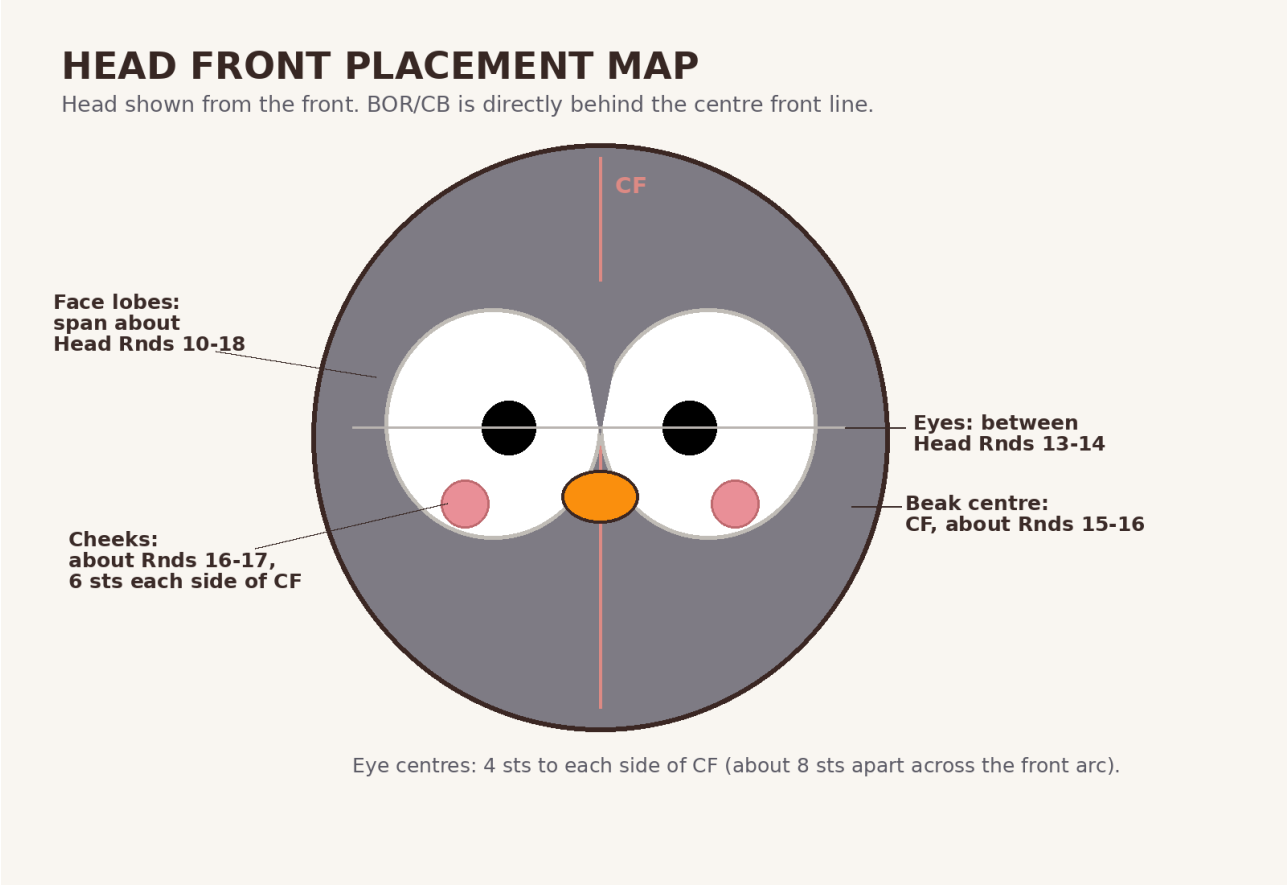

- Head is intentionally wider and visually dominant, with a rounded crown and soft lower cheek taper.
- Body is slightly narrower than the head and uses a BLO turning rim to encourage a flatter seated base.
- Two White face lobes create the rounded mask while leaving a small Charcoal forehead point above the beak.
- White belly patch is vertically elongated and occupies most of the front torso without wrapping around the sides.
- Wings are short, rounded, and slightly outward-angled rather than long or pointed.
- Feet are low, compact, and spaced close to CF so the orange shapes remain visible from the front without widening the stance excessively.
- All paired features are mirrored from the amigurumi's point of view.

12. Colour Changes and Surface Details

This design uses separate sewn-on colour panels rather than carrying yarn through the head or body. There are no in-round colour changes in the main Charcoal pieces.

- White: two face lobes and one belly patch.
- Orange: beak and two feet.
- Pink: two cheeks.
- Charcoal: head, body, and wings.
- The small Charcoal forehead point is not a separate piece; it is the main head showing between the two White face lobes.
- Keep BOR/CB at the back so the visible spiral step is away from the face and belly.

13. Placement Maps — Head

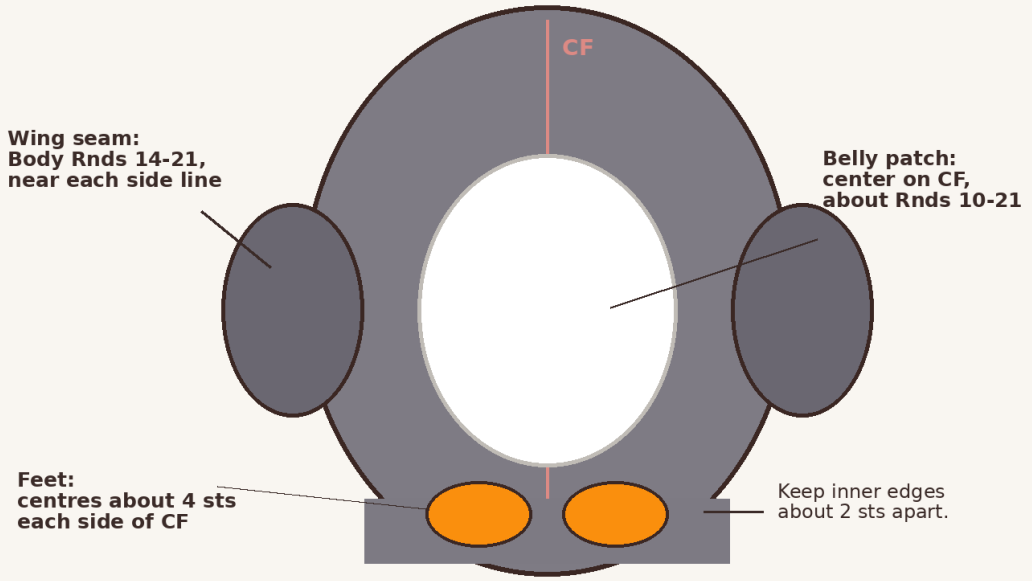

- **Define the front first.** BOR is CB. CF is the point directly opposite BOR on the head. Place a removable marker along the vertical CF line before pinning the face.
- **Face lobes.** Pin the two White ovals over approximately Head Rnds 10-18. Their outer edges should reach about 10-12 sts to each side of CF. Angle the upper inner edges slightly away from CF and let the lower inner edges nearly meet around Head Rnds 15-17; this leaves the small Charcoal V-shaped forehead point.
- **Eye centres.** Place the eyes between Head Rnds 13 and 14, about 4 sts to the plushie's right and 4 sts to the plushie's left of CF. The eye posts are therefore about 8 sts apart across the front arc.
- **Beak.** Centre the beak on CF over about Head Rnds 15-16, directly between and slightly below the eyes.
- **Cheeks.** Centre each Pink cheek around Head Rnds 16-17, about 6 sts to each side of CF. Keep both cheeks level.

13. Placement Maps — Body and Orientation

BODY FRONT PLACEMENT MAP

Body shown from the front. Keep the BLO base rim flat so Poppy can sit steadily.

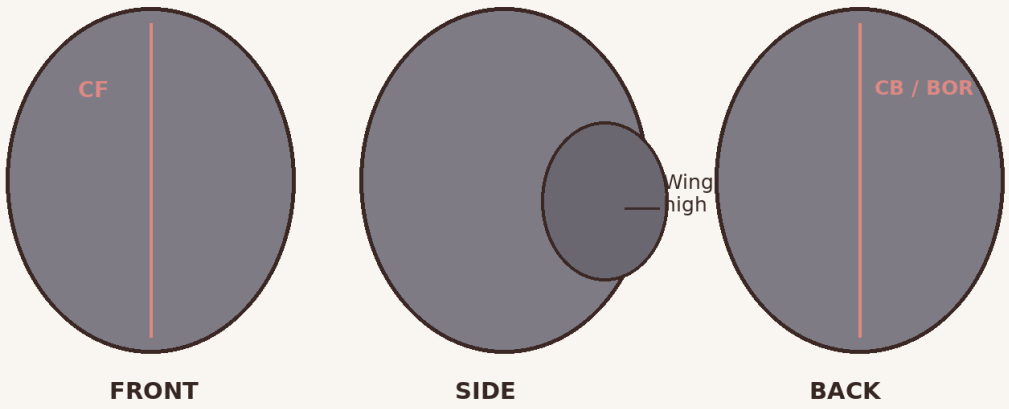

Align the head-body seam at CF and CB before attaching wings or feet.

- **Belly patch.** Centre the long axis on Body CF. Pin the lower edge near the BLO base rim at about Body Rnds 10-11 and the upper edge around Body Rnds 20-21. Keep the widest section over the middle front of the body.
- **Feet.** Position the foot centres about 4 sts to each side of CF. Let the inner edges sit about 2 sts apart and allow the front half of each foot to project slightly beyond the body base.
- **Wings.** Place the narrow shoulder edge high on each side, around Body Rnds 19-21, near the natural side line. Continue the seam downward to about Body Rnd 14, leaving the lower rounded tip free so it angles slightly outward.

ORIENTATION GUIDE

Right and left are always described from the amigurumi's point of view.

Keep the BOR/CB marker at centre back on both the head and the body.

Before sewing, view the pinned parts from the front, back, top, and both sides. The left and right wings should mirror each other, and the feet should support the body without forcing the base to rock.

14. Stuffing and Shaping

- **Head:** firmly stuffed without stretching the stitches. Add small tufts around the outer cheeks to keep the head round. Keep the final neck rounds moderately filled so the seam is smooth rather than bulging.
- **Body:** firmly stuffed through the centre, but press the lower filling outward rather than downward so the BLO base rim stays flat. Do not overfill the neck.
- **Beak:** lightly stuffed; it should project softly without becoming spherical.
- **Feet:** lightly to moderately stuffed. The underside should still flatten when Poppy sits.
- **Wings, face lobes, belly patch, cheeks:** leave unstuffed.
- **Final shaping:** after assembly, roll the head and body gently between your palms to distribute stuffing. Add no needle sculpting unless you personally prefer a slightly deeper eye expression.

STUFFING CHECK

If the crochet holes visibly widen, remove a small amount of stuffing. Dense amigurumi fabric should hold its shape without exposing fibre filling.

15. Assembly Instructions

1. On the unstuffed Head, mark CB/BOR and CF. Pin both White face lobes in place using the Head Placement Map. Check the Charcoal forehead point from the front before sewing.
2. Sew each face lobe around its outer edge with small whip stitches, catching one loop of the lobe edge and a shallow bite of the head fabric. Leave the eye area easy to access until eye placement is confirmed.
3. Before fitting safety-eye washers, use pins or temporary eye posts to preview the eye line. When satisfied, insert the 16 mm eye posts through the White lobes and Head between Head Rnds 13-14, 4 sts to each side of CF. Secure the washers inside the open Head. For an embroidered version, sew black oval eyes at the same positions after the lobes are fully attached.
4. Pin the Beak centred on CF over Head Rnds 15-16. Sew around the flattened opening, then make a second small pass across the upper edge if needed to keep it level. Do not over-tighten.
5. Sew the Pink Cheeks flat around Head Rnds 16-17, about 6 sts each side of CF. Confirm they are level with each other.
6. Finish stuffing the Head firmly. Keep the last 1-2 neck rounds slightly softer. Leave the 36-st opening unclosed.
7. Stuff the Body through the 36-st neck opening. Keep the BLO base rim flat. Pin the White Belly Patch to CF from about Body Rnds 10-21 and sew it flat with small whip stitches. Recheck the lower body shape after sewing.
8. Align the Head and Body with both BOR/CB lines together and both CF lines together. The two openings each have 36 sts. Whip stitch one Head stitch to one Body stitch around the complete neck. Pause halfway to adjust stuffing if a hollow area appears, then finish and bury the tail.
9. Pin the Feet at the front base with centres about 4 sts to each side of CF and inner edges about 2 sts apart. Sew around the back half and side edges of each foot, leaving the forward half projecting slightly.
10. Pin the Wings high on the sides. Sew the narrow shoulder edge around Body Rnds 19-21 and continue a short seam downward to about Rnd 14. Leave the rounded lower tip free.
11. Check Poppy from every direction. Adjust wing angle, foot contact, and any small stuffing unevenness before securing and burying all remaining yarn tails.
12. Remove all temporary markers and pins. Confirm that no yarn tail, washer, or stuffing remains exposed.

16. Sewing Methods

Join	Recommended method
Flat panel attachment	Use a small whip stitch. Pass the needle through one edge loop of the panel, then take a shallow horizontal bite through the underlying head or body fabric. Pull only until the edge lies flat.
Head-to-body join	Use whip stitch through both loops of the corresponding Head and Body opening stitches. Because both openings have 36 sts, join one-for-one while keeping CF and CB aligned.
Wings	Sew the flattened 8-st shoulder opening through both layers first, then continue a short surface seam down the back-side edge. Leave the lower tip free.
Feet	Sew the flattened opening and rear half of the foot to the front base. Catch the body fabric close to the BLO base rim without pulling the rim upward.
Beak	Sew around the flattened open edge. A second short securing pass at the upper centre can stop the beak from tipping downward.
Securing yarn tails	After the final knot, run the needle through the stuffed piece for 3 to 5 cm / 1 to 2 in and bring it out at a distant point. Pull gently, trim close, and massage the fabric so the end retracts inside.

SEAM TENSION

The seam should hold the piece securely without creating dents. If the attached piece puckers or the body caves inward, loosen the next stitches and redistribute the tension.

17. Final Visual Checklist

- Face lobes are centred and create a small Charcoal forehead V above the beak.
- Eyes are level and approximately 8 sts apart across the front arc.
- Beak is centred on CF and sits slightly below the eye line.
- Pink cheeks are level and mirrored.
- Head is centred over the body with CF and CB aligned.
- White belly patch is vertical and centred.
- Wings are attached at matching heights and angles.
- Feet are evenly spaced, face forward, and touch the surface evenly.
- Poppy sits steadily without rocking strongly to one side.
- No fibre filling is visible through the stitches.
- No large holes are visible around decreases or sewn pieces.
- No safety-eye washer, knot, or rigid component is exposed.
- All seams are secure and all yarn tails are buried.
- All temporary markers and pins have been removed.

18. Troubleshooting

Problem	Practical fix
Stuffing shows through stitches	Use a smaller hook or firmer tension on the next piece. On the current piece, remove a small amount of stuffing and redistribute it.
Finished penguin is too large or too small	Keep the written stitch counts, but adjust yarn thickness or hook size. A smaller hook/finer yarn makes a smaller penguin; a larger hook/thicker yarn makes a larger one.
Continuous rounds twist	Make sure the BOR marker is moved after every round. Do not add or skip a stitch at the marker.
A visible spiral step appears	Keep BOR at CB/back. Gently massage the finished piece so the step is less noticeable.
Eyes look uneven before washers are installed	Remove the temporary posts or pins, count again from CF, and repin. Do not lock the safety-eye washers until both eyes look level from the front.
Face lobes do not form the forehead point	Unpin the upper inner edges and move them slightly farther from CF while keeping the lower inner edges nearly meeting around Rnds 15-17.
Beak looks off-centre	Align its midpoint directly on the CF guide thread and check from above before completing the seam.
Head leans to one side	Check that CF and CB were aligned at the neck. Add or redistribute a little stuffing on the lower side, and correct seam tension if one side is tighter.
One wing sits higher	Count down from the neck seam and repin both shoulder edges around the same Body rounds before resewing.
Feet are uneven or body rocks	Reduce foot stuffing slightly, confirm equal spacing from CF, and make sure the BLO base rim remains flat.
Gaps appear around a sewn panel	Use smaller, closer whip stitches that catch one panel edge loop and a shallow bite of the base fabric.
Attachment feels loose	Add a second pass along the most mobile part of the seam, especially the wing shoulder or foot rear edge.
Visible holes after decreases	Use the invisible decrease through front loops only and avoid overstuffing directly behind the decrease line.

19. Printing and Customer Notes

- **Digital download only.** No physical item will be shipped.
- **Terminology.** US crochet terms are used throughout.
- **Printing.** The PDF is designed for A4 pages. Print at 100% / Actual Size for the clearest text. Because this pattern contains no full-size sewing templates, US Letter users may also print with standard Fit-to-Page scaling if preferred.
- **Personal use.** You may print a working copy for your own use and crochet finished Poppy penguins for personal use or gifts.
- **Finished-item sales.** You may sell finished handmade items made by you in small quantities. Please do not represent the digital reference image as a photograph of your own finished item.
- **Pattern copyright.** Do not redistribute, resell, copy, translate, upload, or share this PDF or its written instructions, in whole or in part, without authorization.
- **Size variation.** Final size and yarn usage will vary with yarn, hook size, tension, stuffing, and technique.
- **Testing statement.** This pattern was created from a digital design concept and stitch-count validation only. No physical prototype or test crochet was used, and no claim of physical verification is made.

Thank you for crafting with LetYouCraft
